

CoCoA-5 - Bug #103

Bad error mesg using operator ":"

15 Mar 2012 11:57 - John Abbott

Status:	Closed	Start date:	15 Mar 2012
Priority:	Normal	Due date:	
Assignee:	John Abbott	% Done:	100%
Category:	Parser/Interpreter	Estimated time:	2.00 hours
Target version:	CoCoA-5.0.3	Spent time:	0.80 hour
Description			
The session excerpt below contains an erroneous error message. I think the operator should be just ":" -- it certainly should not be "I:(x-2"!!			
<pre>I: (x-2); ERROR: I don't know how to evaluate operator I:(x-2 between IDEAL and RINGELEM</pre>			

History

#1 - 18 Apr 2012 16:31 - John Abbott

- Status changed from New to Closed

Corrected erroneous actual parameters in a call in ColonExpression:implEval in file Interpreter.C.

I simply copied the corresponding lines from PowerExpression::implEval because the similar input I^(x-1) gave the correct error message.

All CoCoA-5 tests passed; hope this means my fix is good.

#2 - 08 Jun 2012 17:25 - Anna Maria Bigatti

- Target version set to CoCoA-5.0.3
