- Category set to Parser/Interpreter
- Status changed from New to Feedback
- % Done changed from 0 to 90

Following what I said here:

<https://cocoa.dima.unige.it/redmine/issues/743#note-7>

I added in Interpreter.C a function called MESSAGE(err) to be called instead of message(err). This new function combines message and context for cocoalib errors, so it gives the right context (indeed!) even for obscure internal errors.

#5 - 28 Apr 2017 09:20 - Anna Maria Bigatti

- Estimated time set to 1.01 h

function renamed message_forC5 and moved in CoCoALibSupplement

#6 - 28 Apr 2017 19:21 - Anna Maria Bigatti

- Status changed from Feedback to Closed
- % Done changed from 90 to 100
