

CoCoALib - Support #1096

WEB SITE: HTML is not clean!

Description I have just had trouble with viewing the CoCoALib page in Firefox: it seemed that the page never finished loading (as the coloured wheel just kept rotating). I copied the page source into Emacs, and chose the "SGML-validate" option. This gave about 360 lines of "errors"! We should clean the HTML on our web site! No doubt much the same applies to other pages on our website :-/
