#2 - 09 Jan 2020 13:55 - John Abbott

- Target version changed from CoCoALib-0.99700 to CoCoALib-0.99800

Postponing because this is not essential for the next release, and choosing *status quo* seems to be harmless while also saving time.

#3 - 15 Jan 2021 18:01 - John Abbott

- Status changed from New to In Progress

- % Done changed from 0 to 10

Progress chart:

- **SmallPrime.txt** removed because very out of date
- *fill in as progress is made*

#4 - 03 Nov 2021 19:20 - John Abbott

- % Done changed from 10 to 20

I have just added doc for **exception** to the indexes.

#5 - 03 Nov 2021 19:57 - John Abbott

- % Done changed from 20 to 30

The doc for assert had already been added. I have revised the source code in assert.H slightly.

#6 - 03 Nov 2021 20:56 - John Abbott

- % Done changed from 30 to 50

I have added a "first" version of doc for IdealOfPoints and IdealOfProjectivePoints.

#7 - 04 Feb 2022 22:05 - John Abbott

- Assignee set to John Abbott

- % Done changed from 50 to 70

There is a file called SparsePolyOps.txt which seems to be devoid of meaningful content. There are several files whose names begin SparsePolyOps-. I suggest simply deleting SparsePolyOps.txt -- OK, Anna?

#9 - 07 Mar 2023 20:51 - John Abbott

Let's discuss this issue. I hope we can resolve it this week.

#10 - 09 Mar 2023 22:11 - John Abbott

- Status changed from In Progress to Resolved

- % Done changed from 70 to 90

The only remaining case is **SparsePolyOps.txt** which is almost empty... **BUT** there are several other files **SparsePolyOps-XYZ**.

Perhaps these other files should be merged into a single file somewhere? (either a new file, or an existing file).
