Target version:	CoCoA-5.4.2		**Spent time:**	0.50 hour

Description
Julian and I created a CoCoa plugin for Vim that provides some basic syntax highlighting, indentation and snippets: https://github.com/abacus42/CoCoA-Vim. Maybe this is useful for some other vim users out there :)

History

Haha! Feature Request: Butterfly support for CoCoA =)

#3 - 08 Oct 2020 13:54 - John Abbott

- Target version set to CoCoA-5.4.2

- % Done changed from 0 to 70

Assuming that this works reasonably well, it would be nice to release it with CoCoA-5.
When? Next version? The one after?

#4 - 09 Oct 2020 15:59 - John Abbott

Florian suggests putting a link to the github address somewhere evident on the download page for CoCoA-5 for linux.

JAA thinks this is a good idea.

#5 - 03 Nov 2020 22:19 - John Abbott

Can we make the link for the imminent (interim) release?

#6 - 24 Sep 2021 21:47 - John Abbott

Same comment as above (11 months ago). We should mention it to the participants at the minicourse.
