CoCoA-5 manual: incorrect empty line in syntax box (in PDF file)

25 Sep 2019 15:49 - John Abbott

Status:	New	Start date:	25 Sep 2019
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Manual/documentation	Estimated time:	0.00 hour
Target version:	CoCoA-5.4.2	Spent time:	0.35 hour
Description In the PDF version there are "unhappy" empty lines at the end of some boxes around the "syntax" of some commands. Correct this.

This seems to be related to commands which return no result, or which have extra "descriptions" inside the syntax part.

This is still a problem, but not so common.

We should identify some cases where it occurs, and study those:

```
print
PrintBettiDiagram
PrintBettiMatrix
PrintBettiNumbers
PrintLn
QQ
quit
```

A first guess is that the extra line appears when there is no return type specified.
