I have just commented out all fns in obsolescent.cpkg5 which have been there at least 4 years.
All CoCoA-5 tests pass.
Do we need to check the C5 manual too?

Anna assumes henceforth **TOTAL RESPONSIBILITY** for obsolescent.cpkg5.

She wants to extend it until eternity. God know what she wants to do with the obsolescent things in the manual. **That's her responsibility too**!

We're a tiny project; it's hard enough trying to go forward without having to carry all this extra baggage as well!
