Description

Proposal: hide or remove all pages about CoCoA-4 (and its manual).

We could perhaps add a sentence that anyone who really needs CoCoA-4.7.5 can ask by email.

Discuss, and potentially implement.

I have put 5.3.0 as the target, since it would be good to do the cleaning before releasing 5.3.0, but it is not necessary.

Right now, my preference is to leave the web pages for CoCoA-4 in existence, but not to publish any link to them.
It could also be a good idea to change slightly the URL, so that if any other pages have links to the CoCoA-4 pages then these links will be broken...
(is this really a good idea?)

Perhaps we can move this to 5.3.2, so that 5.3.0 seems to be more complete? ;-)
