

CoCoA-5 - Bug #1695

boost-find-lib.sh

16 Aug 2022 21:27 - John Abbott

Status:	Closed	Start date:	16 Aug 2022
Priority:	Normal	Due date:	
Assignee:	John Abbott	% Done:	100%
Category:	Portability	Estimated time:	0.88 hour
Target version:	CoCoA-5.4.2	Spent time:	0.85 hour
Description Robert Goldman reported by email (2022-08-15) that the script boost-find-lib.sh did not work with a standard installation on Ubuntu (presumably 22.04). Fix.

- % Done changed from 0 to 30

I have changed the list of dirs to search for the BOOST libs, and have asked Robert Goldman to verify that it works for him.

The script is rather scrappy, and should be made tidier.

It would be nice to have a check to see whether there is a standard installation of BOOST (so it suffices just to specify -lboost)

JAA thinks this has probably been resolved by the new configuration system.
So changing to **feedback** status.
