

CoCoA-5 - Feature #1752

Make it easy to run the tests in a public/distrib version

06 Jul 2023 12:12 - John Abbott

Status:	New	Start date:	06 Jul 2023
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	enhancing/improving	Estimated time:	0.00 hour
Target version:	CoCoA-5.4.4	Spent time:	0.25 hour
Description			
It is not currently so easy to verify that the distributed "pre-compiled" version of CoCoA-5 passes all the tests. Make this easier.			

History

#1 - 06 Jul 2023 12:14 - John Abbott

One possibility is to include the src/CoCoA-5/tests directory in the distribution... it is no doubt small in comparison to the size of the executable (so won't make the distribution significantly bigger).

The relevant script is src/CoCoA-5/tests/RunTests.sh
