<b>Description</b>			
<p>I wanted to loo up how to generate a random permutation -- I was fairly sure that CoCoA-5 had such a function. So I (lazily) typed</p> <pre>?random</pre> <p>Of course, that gave the manual page for random, but it also gave a list of <i>see also</i> entries. But RandomPermutation was not there :-)</p> <p>I then typed the variant</p> <pre>??random</pre> <p>And now many more names appeared (incl. RandomPermutation)</p> <p>Should there be a link between what ?? lists and the <i>see also</i> list?</p>
