C5 tells me "no matches" when I ask for ? ><

Is this what we want? [no!]

How to fix it? [don't know] Maybe if there's a search for symbols rather than words, we could produce a page explaining how to find documentation for operators?

fixed.

I just added CleanupLine in

```
void index::entry::myAddKey(const std::string& key)
{ myKeysValue.push_back(CleanupLine(LowerCase(key))); }
```
