CoCoA-5 - Design #477

Eliminate keyword Alias?

14 Mar 2014 20:44 - John Abbott

Target version:	CoCoA-5.?.?	**Spent time:**	0.50 hour

Description		
I think the concept of Alias is no longer needed (or only very rarely). Can we eliminate it?

I have removed several uses of Alias but making use of $. in packages.

There are some cases where it cannot be removed trivially. Investigate!
