History

#1 - 10 Apr 2014 17:57 - Anna Maria Bigatti

- Target version changed from CoCoA-5.1.0 Easter14 to CoCoA-5.1.1 Seoul14

#2 - 14 Jul 2014 18:09 - Anna Maria Bigatti

- Status changed from New to Feedback

- % Done changed from 10 to 90

- Estimated time set to 2.00 h

resurrected and documented functions **HilbertSeriesShifts** and **HilbertSeriesMultiDeg**
they are just shortcuts to avoid properly writing the environment (proper ring with weights, proper free module with shifts)

moved al syntax into obsolescent.cpkg5 and indicated it in the manual

just about to cvs all this

#3 - 31 Jul 2014 15:06 - Anna Maria Bigatti

- Status changed from Feedback to Closed

- % Done changed from 90 to 100

Now all functions work. A proper clean-up and re-design is in another issue.
