

## CoCoALib - Feature #564

### Temporary file for experimentation

22 May 2014 12:07 - John Abbott

<b>Status:</b>	New	<b>Start date:</b>	22 May 2014
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Various	<b>Estimated time:</b>	2.00 hours
<b>Target version:</b>	CoCoALib-1.0	<b>Spent time:</b>	0.25 hour
<b>Description</b>			
<p>Here is a proposal: put in the CoCoALib sources a "temporary" file into which potential CoCoALib contributors can put their experimental code while developing it.</p> <p>Having a fixed, preexisting file to play with relieves the developer of the need to mess about with Makefile. Laura said she would find this helpful.</p>			

### History

#### #1 - 16 Jul 2014 14:38 - John Abbott

- Target version changed from CoCoALib-0.99534 Seoul14 to CoCoALib-1.0

Now that I have added checks for new files in include/CoCoA/ and in src/AlgebraicCore/, it may be less important to have "temporary files" into which potential contributors can put their code.

Since this is not so clear, I have changed target version to "After Seoul".
