

CoCoA - Bug #60

Bug # 53 (Closed): MSVC10 compilation

MSVC10 - shared_ptr

07 Dec 2011 17:06 - Anna Maria Bigatti

Status:	Closed	Start date:	07 Dec 2011
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Portability	Estimated time:	1.00 hour
Target version:	CoCoA-5.0.2	Spent time:	0.95 hour
Description			
Apparently Visual Studio has its own shared_ptr (in view of C++11?), so it complains about calls of boost::shared_ptr as "shared_ptr" (i.e. without "boost::")			
I think it is "almost" right (in view of C++11 shared_ptr) and we should add "boost::" (very few occurrences)			

History

#2 - 24 Jan 2012 09:28 - Anna Maria Bigatti

- Target version set to CoCoA-5.0.2

#3 - 26 Jan 2012 14:54 - John Abbott

In the interpreter there are 5 occurrences of shared_ptr.
These have all been replaced by boost::shared_ptr.
This avoids a problem with MSVC.

The question will have to be revisited when the code is updated to C++11.
