Target version:	CoCoALib-0.99534 Seoul14	**Spent time:**	13.65 hours

Description

avoid duplication of documentation: write doc only in the most appropriate file X and add list of functions and link to file X in matrix.txt

Is it possible to set a "label" and have a link to a "label" with t2t?

Subtasks:

Feature # 71: ZeroMat & FilledMat	**Closed**
Feature # 72: MatByRows, MatByCols	**Closed**
Bug # 73: Repeated rows/cols in submat	**Closed**
Support # 65: matrix - MatrixView	**Closed**

Is it possible to set a "label" and have a link to a "label" with t2t?
The answer is "yes" (just to (sub)section titles)

in **ClassName.txt** set the link name like this (no spaces)

```
=== Title of subsection one ===[SubsectionOne]
```

then, in another file write (defined by me in doc/config.t2t)

```
.. see [[ClassName SubsectionOne]]
```

to get the link to ClassName.html#SubsectionOne
